

URINOMICS | NEPHROMICS 2015

2nd International Conference on Urine OMICS - URINOMICS 2nd International Caparica Conference in Translational Nephrology - NEPHROMICS

28th – 30th September 2015 Costa de Caparica – Portugal

Christiane Auray-Blais, PhD (Canada)

Division of Medical Genetics, Department of Pediatrics, Faculty of Medicine and Health Sciences, Université de Sherbrooke, Canada

Urinary Biomarkers in Translational Research: From Discovery to Clinical Applications

Harald Mischak, PhD (Germany)

Mosaiques-diagnostics GmbH, Germany

Urinary proteomics: from basic research towards routine clinical applications

Antonia Vlahou, PhD (Greece)

Biomedical Research Foundation Academy of Athens, Greece

Investigating the urine proteome for biomarker development and understanding disease

Sugaya Takeshi, PhD (Japan)

St. Marianna University School of Medicine, Department of Internal Medicine, Kawasaki, Japan

Bornhop Darryl, PhD (USA)

Vanderbilt University, Nashville, Tennessee, USA

Catheterizing the bottleneck for urinary biomarker validation with backscattering interferometry

CONFERENCE TOPICS

- Urinary proteomics & metabolomics
- Urine and genomics & DNA
- Urinary metallomics
- Urinary bacteriome
- OMICS in nephrology
- Emerging technologies in nephrology
- Translational nephrology

CONTACTS

José Luis Capelo, UCIBIO-REQUIMTE FCT | UNL jlcm@fct.unl.pt

Carlos Lodeiro, UCIBIO-REQUIMTE FCT | UNL cle@fct.unl.pt
